A) the type of armed forces intended primarily for conducting combat operations on land;

B) the type of troops intended for solving strategic and local combat tasks;

C) the branch of the armed forces that ensures the performance of any combat tasks in the conduct of military operations;

D) a branch of the armed forces capable of performing combat tasks to prevent a military threat.

Approximate topics of research papers

1. The damaging factors of nuclear weapons and their protection.
2. The main types of constituent substances, means and methods of protection against chemical weapons.
3. Means and methods of using bacteriological weapons, protection against them.
4. Design and operation of the main types of protective structures.
5. Purpose and classification of personal protective equipment.
6. The simplest means of respiratory and skin protection, their manufacture and use.
7. Examples and methods of providing first aid in case of exposure to radioactive and toxic substances.
8. Methodology for assessing the object's resistance to the impact of damaging factors.
9. The concept of National Security of the Russian Federation.
10. Military doctrine of the Russian Federation.
11. The Constitution of the Russian Federation on the organization of state defense.
12. Legal basis of the state's defense policy.
13. Russian Armed Forces: History and Modernity.
14. Ground Forces: structure, tasks, and functions.
15. The Air Force: its history, organizational structure, and purpose.
16. Navy: main tasks and combat potential.
17. Strategic missile Forces, Airborne Troops, and Space Forces as independent branches of the central command.
18. Military service is an honorable civil duty.
19. Legal basis of military service.
20. General military regulations of the Armed Forces of the Russian Federation.
21. Status of military personnel.
22. Rights, benefits, and duties of military personnel.
23. Responsibility of military personnel.
24. Criminal liability of military personnel for committing military crimes.
25. Military service by conscription.
26. Military service under contract.
27. Alternative civil service.

28. Main types of military activity.
29. Forms and causes of hazing.
30. Measures to prevent diseases, stress, and delinquency during military service.
31. International (peacekeeping) activities of the RF Armed Forces.
32. Military-patriotic education as preparation of citizens for military service.

Intermediate certification of students is carried out in the form of a test using the following assessment materials: *list of questions for the test*.

Questions for the test (4th semester, full-time study)

1. Purpose, scope of activity and tasks of the Armed Forces of the Russian Federation.
2. Organizational structure, general composition and staffing of the Armed Forces of the Russian Federation.
3. The role and place of the Armed Forces in the national security system of the country.
- Goals and stages of modern reform of the Armed Forces.
4. Stages of development of the Russian troops. History of the creation of the Russian Armed Forces.
5. Types of Armed Forces, branches of the modern Russian Army.
6. Composition, purpose and combat capabilities of the types and branches of the Armed Forces of the Armed Forces.
7. History of the creation of types of the Armed Forces of the Russian Federation.
8. Days of Military Glory of Russia
9. The battle flag of a military unit is a symbol of military honor, valor and glory.
10. Orders - honorary awards for military distinctions and merits in battle and military service.
11. Rituals of the Armed Forces of the Russian Federation.
12. Organization of military registration and its purpose.
13. Mandatory training of citizens for military service.
