Control			
Other forms of work			
Independent work	18		

Total number of academic hours: 72
labour intensity: 2 credits.

Developer of the work programme:
Doctor of Political Sciences, Professor

Skiperskikh A.V.

I. ORGANIZATIONAL AND METHODOLOGICAL SECTION

The purpose of studying the discipline: The purpose of teaching the discipline "Fundamentals of Russian Statehood" is to form in students a system of knowledge, skills and competencies, as well as values, rules and norms of behavior associated with the awareness of belonging to Russian society, the development of a sense of patriotism and citizenship, the formation of a spiritual, moral and cultural foundation for a developed and integral personality, aware of the peculiarities of the historical path of the Russian state, the originality of its political organization and the combination of individual dignity and success with social progress and political stability of their homeland.

Objectives of studying the discipline:

- to show Russia as a state-civilization in its continuous development, to reflect its most significant features, principles and current guidelines;
- to reveal the value-behavioral content of the sense of citizenship and patriotism, inseparable from developed critical thinking, free development of the individual and the ability to independently judge the current political and cultural context;
- to consider the fundamental achievements, inventions, discoveries and accomplishments associated with the development of the Russian land and Russian civilization, to present them in a relevant and significant perspective that fosters in citizens pride and involvement in their culture and their people;
- to present the key meanings, ethical and ideological doctrines that have developed within the Russian civilization and reflect its multinational, multi-confessional and solidarity (community) character;
- to consider the features of the modern political organization of Russian society, the causal nature and specificity of its current transformation, the value support of traditional institutional decisions and the special polyvariance of the relationship between the Russian state and society in the federal dimension;
- to explore the most probable external and internal challenges facing the Russian civilization and its statehood at the present moment, to outline the key scenarios for its future development;
- to outline the fundamental value principles (constants) of the Russian civilization (unity of diversity, strength and responsibility, harmony and cooperation, love and trust, creation and development), as well as the interconnected value guidelines of the Russian civilizational development.

The place of the discipline in the structure of the BPEP: implemented within the framework of the basic (mandatory) part of block B1. Disciplines (modules)

Planned learning outcomes for the course:

Код компетенции	Индикаторы достижения компетенции	Планируемые результаты обучения по дисциплине
UC-5 Able to perceive intercultural diversity of society in socio-historical, ethical and philosophical contexts	To know: - cultural characteristics and traditions of various social groups and ways of studying them; historical heritage and socio-cultural traditions of various social groups; - stages of historical development of Russia (including main events, main historical figures) in the context of world history and cultural traditions of the world (depending on the environment and objectives of education), including world religions, philosophical and ethical teachings.	Knows: - cultural characteristics and traditions of various social groups and ways of studying them; historical heritage and socio-cultural traditions of various social groups; - stages of historical development of Russia (including main events, main historical figures) in the context of world history and cultural traditions of the world (depending on the environment and objectives of education), including world religions,

	<p>To be able to:</p> <ul style="list-style-type: none"> - tolerantly and constructively interact with people, taking into account their socio-cultural characteristics in order to successfully complete professional tasks and strengthen social integration. <p>To possess:</p> <ul style="list-style-type: none"> - skills of respectful attitude to the historical heritage and socio-cultural traditions of various social groups. 	<p>philosophical and ethical teachings.</p> <p>Is able to:</p> <ul style="list-style-type: none"> - to make interaction with people, taking into account their socio-cultural characteristics in order to successfully complete professional tasks and strengthen social integration. <p>Possesses:</p> <ul style="list-style-type: none"> - different skills of respectful attitude to the historical heritage and socio-cultural traditions of various social groups.
<p>GPC-4 Able to organize joint and individual educational and upbringing activities of students, including those with special educational needs, in accordance with the requirements of federal state educational standards.</p>	<p>To know:</p> <ul style="list-style-type: none"> - the essence, forms and methods of organizing educational and upbringing activities; - modern technologies for organizing joint and individual educational and upbringing activities, including in the context of an inclusive educational process; - the basics of psychodiagnostics and the main signs of deviations in the development of children. <p>To be able to:</p> <ul style="list-style-type: none"> - correlate the requirements of federal educational standards with the individual educational needs of students; - organize joint educational and upbringing activities; - develop and implement individual educational routes, individual development programs and individually oriented educational programs taking into account the personal and age characteristics of students. <p>To possess:</p> <ul style="list-style-type: none"> - methods of organizing joint and individual educational and upbringing activities; - methods of identifying children with special educational needs. 	<p>Knows:</p> <ul style="list-style-type: none"> - the essence, forms and methods of organizing educational and upbringing activities; - modern technologies for organizing joint and individual educational and upbringing activities, including in the context of an inclusive educational process; - the basics of psychodiagnostics and the main signs of deviations in the development of children. <p>Is able to:</p> <ul style="list-style-type: none"> - correlate the requirements of federal educational standards with the individual educational needs of students; - organize joint educational and upbringing activities; - develop and implement individual educational routes, individual development programs and individually oriented educational programs taking into account the personal and age characteristics of students. <p>Possesses:</p> <ul style="list-style-type: none"> - different methods of organizing joint and individual educational and upbringing activities; - methods of identifying children with special educational needs in the context of national tradition.

II. CONTENT AND SCOPE OF THE DISCIPLINE

indicating the number of hours allocated for contact work of students with the teacher (by type of study)
and for independent work

Full-time education

V. LIST OF RESOURCES OF THE INFORMATION AND TELECOMMUNICATION NETWORK "INTERNET" REQUIRED FOR MASTERING THE DISCIPLINE

№ пп	Link to information resource	Name of the development in electronic form	Availability
1.	https://infourok.ru/	Infourok: educational internet project of Russia. Includes: lesson plans, presentations, tests, video lessons and other materials on school curriculum subjects.	Free access
2.	http://edu.ru/	Russian Education: Federal Portal. Includes links to portals and websites of educational institutions; state educational standards; regulatory documents; catalog of excursions and educational programs.	Free access

VI. MODERN PROFESSIONAL DATABASES AND INFORMATION REFERENCE SYSTEMS

1.	http://www.biblioclub.ru	Electronic library system (ELS) University library online	Registration via any university computer. Further, unlimited individual access is provided from any point where there is access to the Internet
2.	www.garant.ru	Information and legal portal	Free access
3.	www.elibrary.ru	Russian information portal in the field of science, technology, medicine and education	Free access
4.	www.consultant.ru	Russian computer reference and legal system	Free access
5.	https://znanierussia.ru/cinema/collections/dnk-rossii	DNK of Russia	Free access

VII. VII. LICENSED AND FREELY DISTRIBUTED SOFTWARE

The following licensed and freely distributed software is used in the implementation of the academic discipline:

- Microsoft Windows;
- Microsoft Office;
- LibreOffice, etc.

VIII. EQUIPMENT AND TECHNICAL TEACHING AIDS REQUIRED FOR THE IMPLEMENTATION OF THE EDUCATIONAL PROCESS IN THE DISCIPLINE

Classes are held in a classroom equipped with specialized furniture, including stationary technical training equipment (projector, screen, computer).

Independent work is conducted in classrooms equipped with computer equipment with the ability to connect to the Internet and provide access to the electronic information and educational environment of the university.
