III. EVALUATION MATERIALS FOR THE ONGOING AND INTERMEDIATE CERTIFICATION OF STUDENTS IN THE DISCIPLINE

The current certification is carried out in the form of a test.

Standard version of the test

1. Choose several options for the correct answer:

Confirm the correctness of the judgments:

- a) the project is only the introduction of innovations
- b) the project is carried out within the framework of current activities
- c) the project is a solution to problems taking into account available opportunities
- d) the project is a purposeful change in the initial state of a certain system, managed by a manager, associated with time and resources

2. Choose one option for the correct answer:

The sign of legal security characterizes:

- a) registration of interests and regulation of relations of all project participants
- b) the organization of its structure specific to the project
- c) the presence of novelty (uniqueness) of the components of the project and the presence of novelty (uniqueness) of the entire project as a whole
- d) restrictions imposed on the period of time necessary for the implementation of the project itself

3. Choose one correct answer option:

What is not related to the main features of the "Scale of the project"?

- a) the size of the project itself
- b) the number of its participants
- c) the duration of the project implementation period
- d) the degree of its impact on the outside world

4. Choose one correct answer:

The basis of the classification "Project type" means:

- a) classification by complexity
- b) classification by main fields of activity
- c) classification by the nature of the subject area
- d) classification by the duration of the period

5. Select several correct answers:

The economic factors influencing the project are:

- a) tariffs and taxes
- b) the price level
- c) government support for the project
- d) the development of market infrastructure

6. Choose several correct answers:

Political factors influencing the project:

- a) political stability
- b) crime rate
- c) inflation rate and currency stability
- d) living conditions and standard of living

7. Choose one correct answer option:

The infrastructure sector does not form:

- a) engineering support
- b) environmental protection requirements
- c) transport requirements
- d) information support

8. Choose several correct answers:

The project implementation phase includes:

- a) operational planning of work
- b) coordination of work
- c) structural work planning
- d) design development

9. Choose one correct answer:

In the functional structure, the project coordinator:

- a) does not manage resources
- b) manages resources allocated only to the project
- c) manages all resources
- d) ensures the targeted use of resources

10. Choose one correct answer:

The project structure is used when...

- a) one very large project is being implemented, which requires a lot of time and resources
- b) all resources should be divided only between priority projects
- c) the organization's activities are implemented mainly through projects
- d) a comprehensive program consisting of several projects is being implemented

11. Choose several options for the correct answer:

Confirm the correctness of judgments:

- a) in the functional and matrix structure, the project manager influences the project performers through the head of the organization
- b) in the project structure, the project manager directly influences the performers
- c) in the functional structure, all resources and personnel are at the disposal of functional managers
- d) in the project structure, the head manages resources through functional managers

12. Choose several options for the correct answer:

The project participants are

- a) the management of the enterprise
- b) the project environment
- c) the project team
- d) project resources

13. Choose one correct answer:

The main participant in project management:

- a) the head of the organization
- b) the customer
- c) the project manager
- d) the investor

14. Select several correct answers

Choose the two most effective levers for forming a project team:

- a) motivation
- b) conflict resolution
- c) responsibility sharing
- d) comfortable working conditions

15. Choose several options for the correct answer:

The basic functions of the project manager are:

- a) contract management
- b) subject area
- c) cost management
- d) human resource management
- e) project duration management
- g) quality management

16. Choose one correct answer:

The optimal duration of the project team:

- a) 1 year
- b) 2 years
- c) 3 years
- d) 0.5 years

17. Choose several options for the correct answer:

The success factors of the team do not include:

- a) the independence of the actions of the team members
- b) work only together with all team members
- c) internal division of labor
- d) solving all problems by joint efforts

18. Choose one correct answer:

The team leader, as a rule, does not use a work style:

- a) liberal
- b) directive
- c) collegial
- d) all styles

19. Choose one correct answer:

The project technology in the company is implemented on the basis of:

- a) own developed documents
- b) legislative documents
- c) all-Russian norms and regulations
- d) does not require regulatory documents

20. Select several correct answers

The responsibility matrix in project management is based on:

- a) the structural model of the project
- b) functional responsibilities
- c) responsibilities for the implementation of the project
- d) overcoming conflicts in the team

Interim assessment of students is carried out in the form of a credit test using the following assessment materials: list of questions for a credit test.

**List of questions for the credit test
(3 term, full-time study)**

1. Definition of the project. The main approaches to understanding the project
2. The main features of the project
3. Types and types of projects
4. Project Environment
5. Project participants
6. The concept of the project life cycle
7. Phases of the project life cycle, their content and sequence
8. Project management as an activity
9. Functional and matrix structures of projects
10. Project, divisional, network structures
11. Advantages and disadvantages of the main types of organizational structures,
12. Choosing a project management structure
13. The role, tasks and functions of the project manager
14. The concept of a "project team", the principles of its formation
15. The main stages of the team's life cycle
16. Functions of the project team members
17. Interaction of project and functional managers. Conflicts
18. The concept of a corporate project management system
19. Regulatory project management system
20. Subjects of the corporate project management system. The concept of a parent organization
21. Objects of the corporate project management system, separation of management functions
22. Requirements for the creation of a team and the formalization of its activities
23. Motivation of project participants.
24. Working methods of the project team
25. Project Office
26. Initiation (initial or pre-investment stage)
27. The essence of planning, its stages, the system of plans
28. Organization of project implementation, analysis

29. Change management, project completion stage
30. Planning the scope of work. The structural plan of the project.
31. Project process plan
32. Time planning in the project
33. Project resource planning and management.
34. Project cost planning and management
35. Strategic management, concept, types
36. Corporate Strategic Management
37. Project implementation technology
38. Problems of project implementation
